

WHAT FUTURE FOR OUR NEIGHBOUR ?

NO! to the PAD MIDI

The Brussels Region wants to implement a development plan for the South Station neighborhood (PAD Midi). The public inquiry is currently underway.

This plan will drastically change our neighborhood.

No to **new towers** that will deprive us of the sky !

No to the increase in **road traffic** !

No to a drastic drop in **air quality** !

No to 2,000 new **luxury flats**!

No to an insane **over-densification** of the district !

No to at least **10 years of construction sites** !

No to the **waste** of resources and energy !

No to **speculation** !

No to an **anti-democratic** process !

The PAD does not address the needs of our neighborhoods and amplifies existing problems.

We, **Midi Moins Une !**, a collective of inhabitants and citizens, are **opposed** to the PAD Midi.

YES! to a human-centric city

Yes to a **sustainable, fair and human-sized** city project !

Yes to **accessible housing** !

Yes to the creation of a real large **urban park** !

Yes to new **playgrounds** !

Yes to a **welcoming public space** !

Yes to **traffic calming** !

Yes to **public nurseries and schools** !

Yes to **sports and cultural infrastructures** !

All this can be done WITHOUT the PAD.

We will not let it happen !

Let's talk

Come meet us and exchange with us during a critical discussion meeting between inhabitants on **monday 18 october, 7.30pm at the Tri Postal (Fonsny av, 48)**

Let's act

Sign the **petition** : <https://www.midimoinsune.be/>

React to the **public inquiry** before November 2nd : <https://perspective.brussels/fr/projets/poles-strategiques/quartier-midi>
